- Teams compete against other teams in their division by moving through each phase. The teams are grouped in groups of 3-5 teams and move through the phases together. These are called rotation groups.
- The schedule is planned to allow each group the same amount of time in each phase, however, some rotation groups may take longer than others in a phase or one phase may take longer. Breaks are scheduled to attempt to bring all teams to end at approximately the same time. All teams will move through all phases by the end of competition.
- Written Test, Classroom, and two of the three phases of Barn, Mega Room, and Stations are required by USPC to be a championships qualifying rally.

"Intro D" Competitor

For those Unrated/D1 AND 10 years old or younger, there is a competition option where competitors have beginner-friendly questions. There are less total points possible, but more points attainable for the new competitor, compared to the regular Novice D questions. Intro D participants are included in Novice D teams. A full team of Intro participants is permitted, but we encourage you to spread them out on your Novice teams.
